Cathedrals are always “works in progress”. St. Joseph is no exception. Whether it is maintaining or updating the old or installing the new, Muth Electric always provides excellent workmanship and follow up.

Kay Myers  
St. Joseph Cathedral

We thank Muth Electric for being our sub contractor on this beautiful and large church complex. We have been trouble free in the electric area since our building was completed in 1999. We are so dependent on electricity that it would be hard to imagine problems in this area while running a large parish.

Fr. Michael Wensing  
St. Thomas More
