We are extremely pleased with the cooperation and outstanding workmanship performed by Muth Electric on our building project. Muth Electric went out of their way to make certain that we were aware of decisions that would improve the project or that might reduce our cost in the long run. They have certainly won our support!

Ernie Peters
Abbott House

The staff of Muth Electric did an excellent job of coordinating work with other contractors, staff and students with minimal disruption to classes. The employees of Muth Electric have the knowledge and expertise to deal with what I considered a very complicated construction project. Each challenge was dealt with in an expeditious and professional manner.

John H. Wellhouse
Pierre School District

MTI and Muth Electric have a long history of working together on a variety of projects. We were pleased with the responsiveness of the project superintendent and the electricians when asked questions. They were thorough in their approach and accommodated our needs.

Our committee felt that Muth Electric did a great job of installing and helping us to be good stewards of the money entrusted to us by our constituency. Our project turned out to be one that many educators have fallen in love with and are building something like it for their own school district.

Lud Hohm
James Valley Christian School

I appreciated the excellent craftsmanship and the caring attitude that the Muth Electric employees displayed during their work on our building. I can always count on Muth Electric to answer any of my questions and take care of any problems in a timely manner.
